SABBIR HOSSAIN

MERN STACK DEVELOPER

I Am Md Sabbir Hossain, A Dedicated MERN Stack Developer And Diploma Student In Computer Science & Engineering. I Specialize In Building Modern, Responsive, And User-Focused Web Applications Using React.Js, Node.Js, Express.Js, And MongoDB. Passionate About Clean Code, Problem-Solving, And Learning New Technologies, I Enjoy Creating Smooth User Experiences And Efficient Backend Systems. As A Motivated Fresher, I Am Eager To Apply My Skills In Real Projects, Grow As A Full-Stack Developer, And Contribute To A Professional Development Team.

Project

2025

SilentTalk

Chatting Web App

SilentTalk is a modern real-time chatting application built for fast, secure, and seamless communication. It includes features like instant messaging, user authentication, and a clean, responsive UI. I have developed SilentTalk as a MERN Stack Developer, focusing on both frontend and backend to ensure smooth performance and a user-friendly experience.

2025

Shortlinky

Short URL Maker

Shortlinky is a simple and efficient URL-shortening application that converts long links into clean, shareable short URLs. Built using the MERN stack with secure backend logic and a responsive UI, I developed this tool to provide fast redirection, easy management, and an improved user experience.

2026

DevBlog

Blog web

DevBlog is a modern and user-friendly blog platform designed for developers to share knowledge, ideas, and technical experiences. Built using the MERN stack with secure authentication and a responsive interface, this application allows users to create, manage, and explore blog posts seamlessly while ensuring a smooth and engaging reading experience.
